Curriculum Vitae

Steven Hawken PhD

Senior Scientist, Ottawa Hospital Research Institute
Associate Professor, School of Epidemiology and Public Health, University of Ottawa
Senior Adjunct Scientist, Institute for Clinical Evaluative Sciences
Affiliate Investigator, Children's Hospital of Eastern Ontario Research Institute
https://www.ohri.ca/profile/shawken **Google Scholar** Pubmed **ORCID ID**

DEGREES:

Ph.D. Epidemiology, University of Ottawa	2014
M.Sc. Applied Statistics, University of Guelph	2001
B.Sc. Honours Biological Science, University of Guelph	1995
Toronto, ON, Canada	

EMPLOYMENT HISTORY:

2023 – Present	Senior Adjunct Scientist, Institute for Clinical Evaluative Sciences, Ottawa, ON, Canada
2023 – Present	Adjunct Professor, Department of Biomedical and Molecular Sciences Queen's University, Kingston ON, Canada
2021 – Present	Senior Scientist, Clinical Epidemiology Program, Ottawa Hospital Research Institute, Ottawa, ON, Canada
2020 – Present	Associate Professor, School of Epidemiology and Public Health, University of Ottawa, Ottawa ON, Canada
2016 – Present	BORN Agent, Better Outcomes Registry and Network (BORN)
2015 – Present	Affiliate Investigator, Children's Hospital of Eastern Ontario Research Institute
2015 – Present	Member, Faculty of Graduate and Postdoctoral Studies, University of Ottawa, Ottawa, ON, Canada
2015 – 2023	Adjunct Scientist, Institute for Clinical Evaluative Sciences, Ottawa, ON, Canada
2014 – 2021	Scientist, Clinical Epidemiology Program, Ottawa Hospital Research Institute, Ottawa, ON, Canada
2015 – 2020	Assistant Professor, School of Epidemiology and Public Health, University of Ottawa, Ottawa ON, Canada
2009 – 2015	Senior Methodologist/Lead Analyst, ICES uOttawa, Ottawa Hospital Research Institute, Ottawa, ON, Canada
2007 – 2009	Biostatistician and Research Manager, Dept. of Epidemiology and Community Medicine, University of Ottawa, ON, Canada
2006 – 2007	Program Lead for Research and Data Mining, Canadian Institute for Health Information, Ottawa, ON, Canada
2005 – 2006	Senior Analyst, Canadian Institute for Health Information, Ottawa, ON, Canada
2000 – 2005	Biostatistician, Population Health Research Institute, McMaster University, Hamilton, ON, Canada

SCHOLARLY AND PROFESSIONAL ACADEMIC ACTIVITIES:

THESIS EXAMINER

2025/07	Rafidul Islam, MSc Epidemiology, University of Ottawa
2024/12	Rong Luo, PhD Epidemiology, University of Ottawa
2023/07	Therese Chan, MSc Epidemiology, University of Ottawa
2021/08	Nikola Rasevic, MSc Epidemiology, University of Ottawa
2020/11	Ryan Iverson, MSc Epidemiology, University of Ottawa
2020/04	Francois Thériault, PhD Epidemiology, University of Ottawa
2019/08	Julie Hudson, MSc Mathematics, University of Ottawa
2019/05	Shazia Hira Chaudhry, MSc Epidemiology, University of Ottawa
2019/01	Iris Perelman, MSc Epidemiology, University of Ottawa
2017/11	Alvi Anan Rahman, MSc Epidemiology, University of Ottawa
2016/07	Kristian Macdonald, MSc Epidemiology, University of Ottawa

THESIS DEFENSE CHAIRPERSON

2023/08	Het Vaishnav, MSc Cellular and Molecular Medicine
2022/06	Josephine Zein, MSc Neuroscience
2018 /07	Sarwat Khan, MSc, Microbiology and Immunology
2017/09	Faranak Vahid-Ansari, PhD, Neuroscience

THESIS PROPOSAL EXAMINER

2020 – Aug 20	Patrick Duong, PhD Rehabilitation Science

PHD COMPREHENSIVE EXAMINER

2025/10	Meghan Lewis, PhD Epidemiology
2024/10	Ahsun Jiwani, Comprehensive Exam – PhD, Epidemiology
2024/10	Mahin Ahmadi-Pishkuhi, Comprehensive Exam – PhD, Epidemiology
2022/10	Komal Valliani, Comprehensive Exam – PhD, Epidemiology
2018/4	Ghayath Janoudi, Comprehensive Exam – PhD, Epidemiology
2017/5	Lisa Currie, Comprehensive Exam (re-examination) – PhD, Epidemiology
2016/12	Lisa Currie, Comprehensive Exam – PhD, Epidemiology

DATA SAFETY MONITORING COMMITTEES

2022 – Present	Member, Data Safety Monitoring Committee Study: Inotropes versus placebo therapy for cardiogenic shock – The CAPITAL DOREMI-2 Trial

Principal Investigator: Dr. Rebecca Mathew, University of Ottawa Heart Institute

2021 – Present Member, Data Safety Monitoring Committee
Study: Transcatheter Mitral Valve Repair for Inotrope Dependent Cardiogenic Shock – The CAPITAL MINOS Trial
Principal Investigator: Dr. Rebecca Mathew, University of Ottawa Heart Institute
Principal Investigator: Dr. Benjamin Hibbert, University of Ottawa Heart Institute

2018 – 2025 Member, Data Safety Monitoring Committee
Study: Rivaroxaban Post-Transradial Access for the Prevention of Radial Artery Occlusion
Principal Investigator: Dr. Benjamin Hibbert, University of Ottawa Heart Institute

2018 – 2022 Member, Data Safety Monitoring Committee
Study: Comparison of Milrinone versus Dobutamine in a Heterogeneous Population of Critically Ill Patients
Principal Investigator: Dr. Benjamin Hibbert, University of Ottawa Heart Institute

GRANT REVIEW COMMITTEES

2025 Nov Peer Reviewer, CIHR, Project Grant Randomized Controlled Trials
~20 hours reviewing + 3 full day committee meetings.

2025 April Peer Reviewer, CIHR, IYS-Net Phase 2: Indigenous Network
~8 hours reviewing, 1 full day committee meeting

2025 April Peer Reviewer, CIHR, IYS-Net Phase 2: Provincial Networks
~20 hours reviewing, 2 full day committee meetings

2024 Dec Peer Reviewer, Canadian Space Agency. Health and Life Science Research on the International Space Station. ~4 hours reviewing + 2 half day committee meetings.

2024 Nov Peer Reviewer, CIHR, Project Grant Randomized Controlled Trials
~20 hours reviewing + 3 full day committee meetings.

2023 Nov Peer Reviewer, CIHR, Project Grant Randomized Controlled Trials
~20 hours reviewing + 3 full day committee meetings.

2023 Jan Peer Reviewer, CIHR, Data Analysis Using Existing Databases and Cohorts ~12 hours reviewing + 3 half day committee meetings.

2021 Dec Peer Reviewer, PSI Foundation - Health Research Operating Grant

2021 Oct Peer Reviewer, Ontario Early Researcher Award – Life Science Clinical (~16 hours + 2 full-day committee meetings)

2021 May Peer Review Committee Member, OSSU AMS Fellowship in Compassionate AI (LOI stage and full proposal stage ~16 hours + 2 half-day committee meetings)

2020 Oct	Peer Review Committee Member, OSSU AMS Small Grants in Compassionate AI (~10 hours + half-day committee meeting)
2020 Oct	Peer Reviewer, CHEO External Grant Review CIHR Project Grant Fall 2020
2019 Sep	Peer Reviewer, CHEO External Grant Review CIHR Team Grant Fall 2019
2019 Jan	Peer Reviewer Committee Member, Operating Grant: Data Analysis Using Existing Databases and Cohorts CIHR
2018 Jan	Peer Reviewer, Operating Grant: Secondary Data Analysis for Cancer Prevention and Control CIHR

ACADEMIC HONORS:

2015	University of Ottawa Faculty of Medicine, Best Thesis Award, PhD in Epidemiology Program
2014	University of Ottawa Faculty of Medicine, Award of Excellence in Graduate Studies, PhD in Epidemiology Program

TRAINEE SUPERVISION

GRADUATE STUDENTS (SUPERVISOR / THESIS ADVISER**)**

COMPLETED: MSc 7 | PhD 2 | PDF 2

IN PROGRESS: PhD 1 | MSc 1

1. Aylin Ermin—PhD University of Ottawa –Thesis topic: *Applications of AI in Maternal Fetal Medicine.* Apr 2025-present. (Principal Supervisor)
2. Ashley Kim—MSc –University of Ottawa—Thesis topic: *Effects of Wildfire Smoke Particulate Matter and Extreme Heat on the Risk of Congenital Heart Defects in Canada.* April 2024-present (Principal Supervisor).
3. Wenshan Li – PDF – Ottawa Hospital Research Institute – Project: *Using Machine Learning to Predict Cognitive Decline Among Long-Term Care Residents in Ontario.* Nov 2022 – Dec 2024
   Awarded AMS Fellowship in Compassion and Artificial Intelligence ($75,000) (Principal Supervisor)
   Present Position: Postdoctoral Fellow
4. Kevin Dick – PDF – CHEO Research Institute – Project: *ELEGANT - prEcision mentaL hEalth usinG Artificial iNtelligence for early intervention*. 2022/08 – 2023/08 (ICES Supervisor)
   Present Position: AI Data Scientist BORN Ontario.
5. Danielle Roy – PhD – University of Ottawa – Project: Thesis Topic: *Plasma Biomarkers, Genetics and Clinical factors for Predicting Risk of Venous Thromboembolism (VTE) in Ambulatory Cancer Patients Receiving Chemotherapy.* 2021/10 – 2025/9 (Principal Supervisor). Current Position: PostDoc. Northern School of Medicine (NOSM)
6. Brieanne Olibris – PhD – University of Ottawa – Thesis Topic: *Use and Risks of Adverse Perinatal Outcomes and Major Birth Defects Associated with Assisted Reproductive Technologies: An*

Epidemiological and Health Policy Analysis of Canadian and Australian Populations. 2016/09 – 2021/09 (Principal Supervisor). Present Position: Medical Resident.

7. Amrin Ahmed – MSc – University of Ottawa – Thesis topic: *Environmental Exposures and Pediatric Health Outcomes.* Sept 2022 – Dec 2024. (Principal Supervisor)
8. Nichole Dai – MSc – University of Ottawa – Thesis topic: Medically attended influenza illness during pregnancy and risk of stillbirth and preterm birth: a population based retrospective cohort study in Ontario, Canada. Sept 2023 – Nov 2025 (Co-supervisor).Present position PHAC.
9. Maisha Islam – MSc – University of Ottawa – Thesis topic: *Connection to Perinatal Care for the Management of Maternal Diabetes and Crohn's & Colitis (CONNECT-DCC)*. Sept 2022-April 2025 (Co-supervisor).
10. Laura Walsh – MSc – University of Ottawa – Thesis topic: *The influence of prenatal exposure to 2009 pandemic H1N1 influenza vaccination and influenza infection during pregnancy on the development of infectious and atopic disease during childhood*. 2016/09 – 2018/12 (Co-Supervisor)
    Present Position: Data Analyst, BORN Ontario
11. Jessica Yau – MSc – University of Ottawa – Thesis topic: *Association of newborn screening analytes with type of delivery among term and preterm births.* 2016/09 – 2018/12 (Co-Supervisor)
    Present Position: Epidemiologist, Public Health Agency of Canada
12. Chunhe Yao – MSc – University of Ottawa – Thesis topic: *Validation of case-finding algorithms derived from health administrative data for identifying neonatal sepsis.* 2016/09 – 2019/10 (Co-Supervisor)
    Present Position: Analyst, Statistics Canada
13. Emeril Santander – MSc – University of Ottawa – Thesis topic: An Investigation of the Association between Metabolic Screening Analytes and Bilirubin Levels in Ontario Newborns. 2017/09 - 2021/02 (Co-Supervisor) Present Position: Data Analyst, Newborn Screening Ontario

THESIS ADVISORY COMMITTEE MEMBER

Completed:

1. Samuel Tiukuvaara MSc (2025)
2. Erin Collins (2024) – PhD
3. Alyson McCormack (2024) – MSc
4. Lisa Currie (2021) – PhD
5. Meghan Laverty (2019) – MSc
6. Romina Fakhraei (2019) – MSc
7. Xinbei Zhao (2017) – MSc
8. Jason Chan (2016) – MSc
9. Robin Ducharme (2014) – MSc

IN PROGRESS:

1. Ashley Kim MSc
2. Ariana Noel MSc
3. Saredo Mohamed Bouraleh MSc
4. Arum Han MSc

TEACHING

GRADUATE COURSES

Jan 2016-present EPI5143 Epidemiological Research Using Large Databases, University of Ottawa. Responsible for teaching (3 hours of lecture per week) and ongoing coordination and course development of this full semester graduate course.

Course content includes:

- Programming skills (using SAS and R) required to manipulate and analyze data from large health administrative databases
- Concepts needed to conduct high quality research using large health administrative databases.

GUEST LECTURES

2023, 2024, 2025 **MSc Epidemiology Seminar. Introduction to SAS, University of Ottawa**

2022/01 **MSc Epidemiology Seminar** – Big Data and Medical AI, University of Ottawa

2021/03 **EPI8166: PhD Seminar** - Handling Missing Data, University of Ottawa

2021/02 **EPI5366: MSc Seminar** -What is Big Data and Medical AI? University of Ottawa

2016/12 **EPI 5212: Introduction to Communicable Disease Epidemiology,** University of Ottawa

2016/10 **EPI 7108: Analytic Epidemiology,** University of Ottawa

2016/09 **POP 8920: Investigative Methods in Population Health,** University of Ottawa

CONFERENCE SESSION ORGANIZER

2025/06 Artificial Intelligence in Perinatal Research. Invited Session Chair. Canadian National Perinatal Research Meeting. Montreal, QC.

INVITED TALKS AND SEMINARS

2025/04 Observational Research. Dept of Nuclear Medicine, OMC Academic Half Day.

2025/03 Cohort Studies Tutorial in R. Dept. of Medicine Research Plus Training Program, The Ottawa Hospital

2025/01 Statistical Methods for Cohort Studies. Dept of Medicine Research Plus Training Program, The Ottawa Hospital

2024/06 Statistical Methods for Cohort Studies. Dept of Medicine Research Plus Training Program, The Ottawa Hospital

2023/09 Observational Research. Dept of Geriatrics. OMC Academic Half Day.

2023/07 Big Data Research/Handling Missing Data. Dept of Infectious Diseases. OMC Academic Half Day.

2023/02 Observational Research, Large Databases. Dept of Critical Cares. OMC Academic Half Day.

2022/08 'Health Research with Big Data'

OMNI Summer Education Rounds, Ottawa Hospital Research Institute

2022/07 ‘Developing and validating models for predicting perinatal and paediatric health outcomes using linked metabolomics, birth registry and clinical databases in Ontario’
OMNI Summer Education Rounds, Ottawa Hospital Research Institute

2022/10 ‘Research Using Routinely Collected Health Data’
Department of Adult Neurology, The Ottawa Hospital

2021/05 Observational Research
Dept of Geriatrics. OMC Academic Half Day

2021/05 Observational Research
Dept of Medicine OMC Academic Half Day

2021/08 Introduction to Biostatistics
Summer Institute in Epidemiology and Biostatistics, University of Ottawa

2021/07 ‘Health Research with Big Data’
OMNI Summer Education Rounds, Ottawa Hospital Research Institute

2020/08 Introduction to Biostatistics (2 full days)
Summer Institute in Epidemiology and Biostatistics, University of Ottawa

2019/08 Introduction to Biostatistics (2 full days)
Summer Institute in Epidemiology and Biostatistics, University of Ottawa

2019/11 ‘BORN Data Analysis and its Clinical Application’.
Keynote Speaker, National Training Program for Maternal and Neonatal Care
Guangzhou, China

2019/11 ‘Big Data Research with Linked Health Administrative Data’
Keynote Speaker, International Summit on Perinatal and Midwifery Care
Guangzhou, China

2019/10 ‘Expertise Available at The Ottawa Methods Centre’
Co-presented with Tim Ramsay, Kelley Cobey, Justin Presseau.
Department of Medicine Grand Rounds
The Ottawa Hospital General Campus

2019/07 ‘Big Data Research with Linked Health Administrative Data’
OMNI Summer Education Rounds
Ottawa Hospital Research Institute

2019/09 ‘The power of big data linkage for maternal-newborn health research: Secondary metabolomic analysis of Newborn Screening Ontario data. Ottawa Hospital Research Institute Scientist Retreat

2018/10 ‘Postnatal gestational age estimation from newborn screening bloodspots: From linear regression to artificial neural networks’. Clinical Epidemiology Program Rounds, Ottawa Hospital Research Institute

2018/10 ‘Developing and validating models for predicting perinatal and pediatric health outcomes using linked metabolomics, birth registry and clinical databases in Ontario’. Bioinformatics Seminar, University of Guelph, Guelph, Ontario, Canada

2018/10 ‘Introducing Epic: New Technologies and New Opportunities for Clinical Research with Big Data’. Research in Progress Rounds, Department of Anesthesiology, University of Ottawa

2018/09 ‘The top 10 ways to ensure your clinical research project fails, or: “Scary stories my biostatistician told me around the campfire.”
Institute for Mental Health Research Training Series, The Royal Ottawa Healthcare Group
Ottawa, Ontario, Canada

2018/03 ‘Harnessing the Power of Data Linkage of Metabolomics, Clinical and Health Administrative Databases from Ontario, Canada: Modeling and Risk Prediction for Perinatal and Pediatric Health Outcomes’
Epidemiology Rounds, University of Iowa School of Public Health
Iowa City, Iowa, USA

2016 /12 ‘Harnessing metabolic markers from newborn blood samples for precision medicine: accurate gestational age prediction and beyond’.
Newborn Screening Reference Centre
Manila, The Philippines.

2016/4 ‘Accurate prediction of gestational age using newborn screening metabolite data’.
Clinical Epidemiology Program Rounds, Ottawa Hospital Research Institute
Ottawa, Ontario, Canada

EXTERNAL RESEARCH FUNDING

YEAR	SOURCE	TITLE	ROLE	AMOUNT
2025-2026	Faculty of Medicine AI Seed Funding	Ultrasound-based Self-Supervised Foundation Models for AI-Assisted Detection of Fetal Anomalies	Principal Applicant	$10,000
2025-2030	CIHR Project Grant	Assessing maternal and infant health outcomes following immunization for respiratory syncytial virus (RSV) disease	Co-Applicant (NPI Darine El Chaar)	$646,426
2025-2026	Ontario HIV Treatment Network	Health Outcomes of Children HIV-Exposed Uninfected	Co-investigator	$80,339

2025-2029	CIHR	BIOlogic drug safety and effectiveness interNational pharmacoepidemiologIC study in pregnant women with autoimmune disorders and asthma and their children (BIONIC)	Co-applicant	$1,268,322
2024-2027	Heart and Stroke Foundation of Canada	Association of prenatal glucose levels with congenital heart disease in offspring: a large population based retrospective cohort study	Principal Applicant	$230,655
2024-2025	CIHR Existing Cohorts Grant	Deep Learning Models for Prediction of Pre-eclampsia from Prenatal Ultrasound Placental Imaging	Principal Applicant	$74,796
2024-2026	CIHR Project Grant	Piloting the EAGER trial: Expectant management versus induction at 38 weeks among individuals with GEstational diabetes mellitus - a Randomized controlled trial	Co-Applicant (NPA Mark Walker)	$569,926
2024-2026 (2 years)	CIHR Project Grant Priority Announcement: Research on Prevention/Response to Covid-19/Similar Future Pandemics	Infant and child health outcomes following SARS-CoV-2 infection in pregnancy	Co-Principal Applicant (NPA Darine El-Chaar)	$175,000
2023-2026	Heart & Stroke	Racial variations and socioeconomic inequities in healthcare utilization and mortality among infants with congenital heart disease: a mixed methods study.	Co-applicant	$270,570
2023-2025 (2 years)	CIHR Project Grant	EPIphANy (Evaluation of Pharmacological Interactions with Anticoagulants in caNcer patients) program - prostate cancer cohort	Co-Applicant (NPAs Wang Tzu-Fei and Manish Sood)	$164,476
2023-2027 (4 years)	CIHR Pan-Canadian Women's Health Coalition - Hubs	The CAnadian Mother-Child Initiative - knowledge mobilization from COnception	Co-Applicant (NPA Anick Berard)	$440,000

		to adulthood - CAMCCO-Outreach		
2023-2024 (1 year)	CIHR Operating Grant: Data Analysis Using Existing Databases and Cohorts	Does early-life respiratory syncytial virus (RSV) infection increase the risk of asthma? Using population-based health administrative data to address two missing pieces of the puzzle	Co-Applicant (NPA Tiffany Fitzpatrick)	$74,971
2023-2024 (1 year)	CIHR Policy Research for Health System Transformation	Generating data-driven policy solutions for Ontario's primary care crisis	Co-Applicant (NPA Claire Kendall)	$149,690
2023-2024 (1 year)	CIHR Priority Announcement: Human Development Child and Youth Health - Mid Career Support	Scope and safety of vaping during pregnancy - generating and disseminating knowledge to inform clinical practice and pregnant individuals	Co-Applicant (Shannon Bainbridge)	$100,00
2022-2025 (3 years)	CIHR Operating Grant: Cannabis Research in Longitudinal studies	Cannabis use in pregnancy and associations with child developmental outcomes: an extension to the Ottawa and Kingston (OaK) Birth Cohort	Co-Applicant (NPA Daniel Corsi)	$289,249
2022-2023	AMS Fellowship in Compassion and Artificial Intelligence	Using Machine Learning to Predict Cognitive Decline Among Long-Term Care Residents in Ontario	Supervisor (NPA Wenshan Li)	$75,000
2021-2027 (6 years)	CIHR Training Grant: Health Research Training Platform - Drug Safety and Effectiveness	The CAnadian Mother-ChIld COLlaborative Training Platform - The CAMCCO-L Training Platform	Principal Applicant (NPA: Anick Bérard)	$2,400,000
2021-2026 (5 years)	CIHR Project Grant	Congenital CMV ANd HEARing in Ontario: Optimizing Screening to Improve Child Health Outcomes (CAN HEAR ONTARIO)	Co-Applicant (NPA: Jason Brophy)	$950,896
2021-2024 (3 years)	CIHR Project Grant	The "Atrial FIBrillation in Pregnancy: assessing seveRe matErnal morbidity and anticoagulation strateGies" (AFIB-PREG) Study	Co-Applicant (NPA: Isabelle Malhamé)	$275,400

2021-2026 (5 years)	CFI Infrastructure Grant	Canadian Mother-Child Cohort Active Surveillance Initiative (CAMCCO)	Co-Applicant, Ontario Co-PI (NPA Anick Bérard)	$3,049,982 total / $200,000 Ontario
2020- 2024	CIHR Team Grant: Personalized Health	Advancing personalized health decision for end-of-life through Implementation Science	Co-Applicant, Algorithm Development Lead	$1,998,900 total / $499,725 per year
2021-2022 (1 year)	Op Grant: Emerging COVID-19 Research Gaps & Priorities - Post COVID-19 condition	Health equity and the post COVID-19 condition	Co-PA (NPA: Claire Kendall)	$221,728
2021-2022 (1 year)	CIHR Project Grant Priority Announcement: Data Analysis Using Existing Databases and Cohorts	Gestational weight loss in obese women and risk for adverse perinatal outcomes: a population-based retrospective cohort study	Co-Applicant (NPA: Mary Guo)	$75,000 bridge funding
2021-2022 (1 year)	CIHR Project Grant Priority Announcement: Data Analysis Using Existing Databases and Cohorts	Connection to Perinatal Care for the Management of Maternal Non-Communicable Diseases: The CONNECT Project	Co-Applicant (NPA: Darine El-Chaar)	$75,000 bridge funding
2019-2020 (1 year)	Health Research Foundation Artificial Intelligence Fellowship	Harnessing the power of artificial intelligence for prediction of an expectant mother's real-time risk of preterm delivery	Nominated Principal Applicant	$100,000
2019-2024 (5 years)	CIHR Project Grant	The INITIATE Study: Initiating nicotine dependence treatment for smokers admitted to emergency departments	Co-investigator (PI Kerri-Anne Mullen)	$888,625
2017-2019 (2 years)	CIHR Catalyst Grant	Improving the health of infants and children through research that links large health administrative databases with	Nominated Principal Investigator	$197,610

		clinical, screening, and laboratory data		
2017-2019 (2 years)	Grand Challenges Explorations Bill and Melinda Gates Foundation,	Metabolic gestational age assessment in low resource settings	Co-investigator (PI Kumanan Wilson)	$948,502 USD
2017-2018 (1 year)	CIHR	Health outcomes in children of mothers who received influenza vaccination during pregnancy	Co-investigator (PI Deshayne Fell)	$75,000
2016-2017 (1 year)	CIHR Canadian Immunization Research Network	Vaccine coverage and safety in children with epilepsy	Co-investigator, PI for Ontario (PI Karina Top)	$120,000
2016-2017 (1 year)	Grand Challenges Explorations – Bill and Melinda Gates Foundation	Development of an algorithm for metabolic prediction of risk of neonatal sepsis, hypoxic ischemic encephalopathy and infant death.	Co-investigator (PI Kumanan Wilson)	$211,259.82 USD
2015-2017 (2 years)	Grand Challenges Explorations – Bill and Melinda Gates Foundation	Development of a global algorithm for metabolic gestational age dating	Co-investigator (PI Kumanan Wilson)	$1,206,353 USD
2015-2017 (2 years)	Health Canada	Bayesian Modelling of Air Pollution Exposure and Health Outcomes in the BORN Cohort	Co-PI and Lead Analyst (Markey Johnson, Health Canada Lead)	$107,500
2015-2016 (1 year)	CIHR Operating Grant	Crystalloid FLUID Choices for Resuscitation of Hospitalized Patients: A Pragmatic Cluster Cross Over Pilot Trial	Co-investigator (PI Lauralyn McIntyre).	$99,504 CAD
2014-2016 (1.5 years)	Grand Challenges Explorations – Bill and Melinda Gates Foundation	Using Newborn Screening Data to Estimate Gestational Age	Co-investigator (PI Kumanan Wilson)	$113,080

2013-2016 (3 years)	CIHR Operating Grant	Assessing Potentially Inappropriate Prescribing (PIP) and predicting patient outcomes in Ontario's elderly population using the modified STOPP criteria in large administrative health databases (the PIP-STOPP study)	Co-investigator (PI Lise Bjerre)	$192,451 CAD
2012-2014 (3 years)	CIHR Banting Doctoral Research Award	Determining the Risk of Adverse Events following Recommended Pediatric Vaccinations in Ontario, Canada	Principle Applicant (Co-supervisors K.Wilson and J. Little)	$105,000
2004-2009 (5 years)	CIHR Operating Grant	Early origins of obesity and co-morbidities - the FAMILY cohort	Co-investigator (Co-PIs Stephanie Atkinson and Koon Teo)	$1,311,631 CAD

INTERNAL RESEARCH FUNDING

YEAR	SOURCE	TITLE	ROLE	AMOUNT
2022-2023 (18 months)	CHEO Precision Child Mental Health Directed Research Grant	ELEGANT study: PrEcision mental hEalth using Artificial iNtelligence for early inTervention	Co-Applicant (PA: Christine Armour)	$250,000
2018-2020 (2 years)	University of Ottawa, Faculty of Medicine Translational Research Grant	The missing link: Integrating placental pathology into existing pregnancy, birth and childhood health repositories.	Principal Investigator	$37,500
2012-2014 (3 yrs)	University of Ottawa Faculty of Graduate and Postdoctoral Studies	University of Ottawa Excellence Scholarship	Student (Co-supervisors K. Wilson and J. Little)	$30,000 CAD
